**POWER OFF KEY:**

1. Press the power off key to turn the calculator off.

**STORAGE KEY:**

1. Press the storage key to store the conversion rate or the tax/ discount rate.

**MEMORY PROTECTION**

1. First, pull out the insulation sheet for the memory protection battery (for retaining the tax/discount rate and conversion rate information).

2. Do not wind the AC cord around the body or otherwise forcibly bend or twist it.

3. Do not place objects on the AC cord. Do not run the AC cord under rugs, mats, or other objects.

4. This product, including accessories, may change due to upgrading without notice.

**PAPER ROLL REPLACEMENT**

1. Do not pull paper backwards as this may cause the printing mechanism to malfunction.

2. Insert the paper feed key and pull it out if it comes out of the front without paper feed.

3. Hold a small end of a sheet by thumb slightly to the paper printing mechanism. (Fig. 1)

4. Put back the printer cover.
CONVERSION EXAMPLES

1. Set the conversion rate ($1 = ¥123.45).

2. Set the conversion rate ($1 = ¥120.00).

3. Set the conversion rate (1 meter = 39.3701 inches).

4. Convert 472.44 inches to meters (1 meter = 39.3701 inches).

Total: 1,500.00

PERCENT CHANGE

Calculate the dollar difference (a) and the percent change (b) between two yearly sales figures: $1,500.00 in one year and $1,300.00 in the previous year.

a = $1,500.00 - $1,300.00 = $200.00
b = ($200.00 / $1,300.00) x 100% ≈ 15.38%

MARKUP AND MARGIN

Markup and Profit/Margin are both ways of calculating percent profit.

- Profit margin is percent profit vs. selling price.
- Markup is the percent profit based on cost.
- Cost is the cost.
- Profit margin is percent profit based on selling price.
- Markup and Profit Margin are both ways of calculating percent profit.

PERCENT

100 = 100
20 = 100

ADD-ON AND DISCOUNT

A 5% add-on to 100.

5.00 Increase

105.00 New amount

PERCENT CHANGE

Calculate the dollar difference (a) and the percent change (b) between two yearly sales figures: $1,500.00 in one year and $1,300.00 in the previous year.

a = $1,500.00 - $1,300.00 = $200.00
b = ($200.00 / $1,300.00) x 100% ≈ 15.38%

MARKUP AND MARGIN

Markup and Profit/Margin are both ways of calculating percent profit.

- Profit margin is percent profit vs. selling price.
- Markup is the percent profit based on cost.
- Selling price (MP)= 100%
- Markup = Cost (M)<br>Cost (C)= 100%
- Markup = Profit Margin (PM)<br>Profit = Cost + Markup

- Markup = Cost (M)<br>Cost (C)= 100%
- Markup = Profit Margin (PM)<br>Profit = Cost + Markup

EXPLANATION OF THE USE OF THE TERMINAL AND ITS BATTERY

1. Connect the power source by attaching the power cord to the terminal and the power outlet. Connect the UL listed power cord only. Do not use any other power cord. The terminal shall be connected to an electric outlet that meets the electrical specification. The electrical outlet shall be located and installed in such a manner as to avoid classifying the terminal into hazardous location. The power source shall be located within reach of the terminal.

2. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is new or if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

5. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

6. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

7. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

8. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

9. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

10. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

11. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

12. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

13. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

14. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

15. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

16. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

17. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

18. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

19. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.

20. The battery shall be used as specified for the life of the terminal. Do not use the terminal if the battery is not charged. Otherwise, the battery may leak and may damage the terminal. The battery shall be replaced as soon as possible when the battery indication is displayed on the terminal. The battery shall be replaced by a new battery. The battery shall be charged only in the terminal.
